PURELL Waterless Surgical Scrub

PURELL WATERLESS SURGICAL SCRUB is designed to meet and exceed FDA surgical scrub requirements⁹ without the addition of harsh ingredients. Our unique formulation uses advanced alcohol as the only active ingredient, plus inactive ingredients that make the alcohol work even harder. Together, they provide the instant germ kill and persistent activity critical to the surgical environment — and critical to meeting FDA and AORN requirements. It requires only two applications and dries quickly. Compatible with latex, neoprene, and polyisoprene gloves. Includes five skin conditioners that help maintain healthy skin.

Keeping skin healthy and well-conditioned is easy with dermatologist-tested GOJO brand hand lotions and skin conditioners.

Healthy skin is the basis of prevention.

Healthy, well-conditioned skin retains more moisture and is less likely to absorb and react to incidental exposure to irritants. Use GOJO HAND MEDIC Professional Skin Conditioner before work, after handwashing and at night to help maintain the skin. Good skin condition is the body's first line of defense against harmful substances and moisture loss.

The **HEALTH** of your patrons & staff is in **YOUR HANDS.**

Is **BULK SOAP** spreading germs to your patrons & staff?

How does bulk soap become contaminated?

Bulk soap dispensers are open to the environment. Germs grow inside because it isn't practical for maintenance personnel to properly clean and sanitize them each time they are refilled. New soap becomes tainted as it is added to contaminated soap.

Bacteria spreads to unsuspecting users who think they are getting clean. Bulk soap may compromise the health of your patrons & staff... and puts your business at risk.

SANITARY SEALED™ refills are **SAFE, SMART** and **SIMPLE**

SAFE: The soap inside is protected from contamination because it is factory sealed and includes a fresh nozzle with each refill.

SMART: The logical choice for helping prevent the spread of germs.

SIMPLE: Virtually labor free; snap in a new refill in seconds.

Don't put your business at risk.

A recent study¹⁶ by the University of Arizona found that 25% of refillable bulk soap dispensers contain unsafe levels of bacterial contamination.

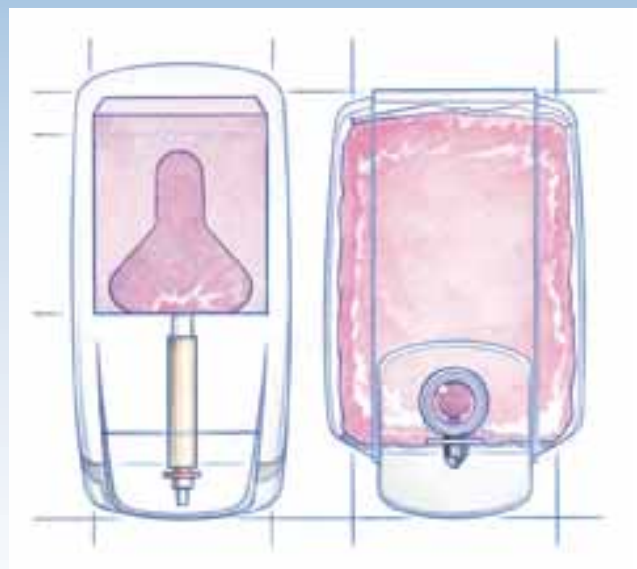

- Coliforms, illness causing fecal-based organisms, were found in 16% of the samples.
- Average user gets over one million bacteria per use¹⁷.
- No bacterial contamination was found in soap dispensed from SANITARY SEALED systems.

Illness is responsible for more than 144 million lost school days per year.¹⁸ Absenteeism robs students of learning time. One of the challenges you face in helping kids achieve their fullest potential is keeping students ready and able to learn. The Centers for Disease Control and Prevention (CDC) states that hand hygiene is one of the most important steps in preventing illness. Yet with all of the demands of a busy school day, it isn't easy to achieve.

GOJO has developed a proven program to encourage hand hygiene based on what we learned by immersing ourselves in the hectic world of education.

GOJO Hand Hygiene Program for Schools

1. **PURELL®**, America's #1 instant hand sanitizer,¹ makes it easier to provide hand hygiene in the classroom
2. **GOJO® foam soap** has a soft feel that kids love — and that encourages use
3. **GOJO innovative educational materials** include games and fun exercises to make wellness an everyday lesson

Colleges & Universities

Build a Healthier Campus Community

Hand hygiene plays a vital role in the learning community. Wherever students connect on campus, they spread germs hand-to-hand, and to objects they share. Performance suffers when illness effects students' ability to study, focus, attend class and do their best.

The GOJO Hand Hygiene Program for Colleges & Universities is a cornerstone for your healthier campus. Our comprehensive approach allows you to promote healthy campus behaviors by making hand hygiene available and highly visible wherever students gather.

GOJO Hand Hygiene Program for Colleges & Universities

- GOJO Green Certified Foam Hand Cleaner¹⁰ promotes frequent handwashing, clean facilities and sustainability efforts
- PURELL, America's #1 instant hand sanitizer,¹ in durable, reliable dispensers, can be made available everywhere students connect
- Education and communication tools make it easy to create a customized plan for your campus

Food Processing

Build a Culture of Hand Hygiene Compliance

All it takes is one employee missing hand hygiene protocol just one time to cause major problems. Contaminated product. Litigation. Brand damage. Even plant shut down. Hand hygiene compliance is critical. Yet confusing product choices, vague regulations, language barriers and competing priorities can make it a challenge.

GOJO offers a comprehensive solution for food processors based on insights achieved by immersing ourselves into your world to discover ways to simplify hand hygiene compliance.

GOJO Hand Hygiene Program for Food Processing

- **Effective products** — NSF listed, E-rated formulas — meet federal guidelines while balancing efficacy and skin mildness
- **Assistance in choosing the right products** to support your HACCP program
- **Language-neutral training** that uses shape and color cues to train employees on why, when and how to wash and sanitize hands
- **Efficient GOJO® foam soap** formulas, and PURELL® Instant Hand Sanitizer, in dispensers that are built to withstand harsh wash-down environments

Foodservice

Clean Hands with No Reservations

Are your employees' hands clean? Are they following your prescribed hand hygiene regimen to prevent contamination and the spread of germs? Compliance can be difficult given the fast-paced environment of a typical restaurant kitchen. Germs brought in by patrons can also lead to contamination.

GOJO offers easy-to-implement, comprehensive hand hygiene programs to help reduce your risk, including a Back of the House program for operators and employees, and a Front of the House Program that focuses on patrons.

GOJO Foodservice Hand Hygiene Program

- **Trusted brands** — PURELL, MICRELL® and GOJO
- **Highly efficacious, Food Code Compliant formulas** that kill germs on hands
- **Easy-to-implement hand hygiene regimens** tailored to meet the needs of your operation
- **Easy access to hand hygiene** through a variety of dispensing options, including PURELL OUT FRONT™, a program designed specifically for patrons
- **An easy-to-use compliance monitoring** program

Automotive

Healthy Hands for the Lives You Touch

Technicians come in contact with stubborn soils like grease, tar and oil every day. It's part of the job. With the wrong hand cleaner, washing can become a time-consuming, frustrating chore resulting in dry, cracked hands that hurt and never really get clean.

Since 1946, GOJO scientists have worked side-by-side with auto techs, studying the daily challenges they face in keeping their skin clean and healthy. Our resulting program makes getting hands safely clean as easy as getting them dirty.

GOJO Hand Hygiene Program for Auto Technicians

- **GOJO, America's #1 heavy-duty hand cleaner**¹², is now available in a new gel formula to remove difficult soils quickly, safely and completely
- **Durable dispensing systems** make hand cleaning easy and convenient
- A simple **"Clean & Condition"** regimen improves skin condition in just 14 days¹⁹

Manufacturing

Create a Healthy, Productive Work Environment

Most manufacturing facilities are hands-on environments, and hands play a critical role in worker health. Exposure to chemicals can lead to occupational dermatitis. Touching simple objects could spread illness-causing germs. Both can lead to lost productivity.

By applying scientific know-how to insights we achieved through experience in your world, GOJO has developed a whole systems approach to combating hand-spread germs and occupational dermatitis.

GOJO Hand Hygiene Program for Manufacturing

- **GOJO, America's #1 hand cleaner**¹², is available in a wide variety of formulas to help keep skin healthy and safely remove the types of soils workers encounter
- **PURELL® America's #1 hand sanitizer** helps reduce the spread of germs
- **Durable dispensing systems** make hand cleaning easy and convenient
- A simple, **"Clean & Condition"** regimen is proven effective at improving skin condition in 14 days¹⁹
